Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Final Office Action is a response to the IDS + amendment + remarks filed on 4/23/04, 5/14/04, and 5/18/04. The remarks are not persuasive; therefore, the previous rejections based on Sriram, Wang, and Yasuda are retained, see the following details.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1, 9-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Sriram et al. (USP 6519751) who discloses a method/program comprising:

(Claim 1 and similarly recited claim 10)

a) identifying a (first) route for a (first) net (fig 1-8);
b) determining whether embedding the first route in a region will make a set of unrouted nets unroutable (col 2 lines 25-27);

c) when embedding the (first) route will make the set of unrouted nets unroutable, identifying a (second) route for the (first) net (fig 1-8)

(Claim 9)

a) identifying a route for a net (fig 1-8);
b) determining whether to embed the identified route first route based on an estimated routing cost (fig 7, col 3 lines 24-29) of a set of unrouted nets in a region when the region contains the identified route.

2. Claims 1, 5, 9-10, 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Wang et al. (USP 6543043) who discloses a method/program comprising:

(Claim 1 and similarly recited claim 10)

a) identifying a (first) route for a (first) net (fig 3-11);

Art Unit: 2825

b) determining whether embedding the first route in a region will make a set of unrouted nets unroutable (fig 4, col 13 lines 1-8);

c) when embedding the (first) route will make the set of unrouted nets unroutable, identifying a (second) route for the (first) net (fig 3-11)

(Claim 9)

a) identifying a route for a net (fig 3-11);

b) determining whether to embed the identified route first route based on an estimated routing cost (fig 4, col 11-12) of a set of unrouted nets in a region when the region contains the identified route.

(Claims 5, 14) when embedding the (first) route will not make the set of unrouted nets unroutable; embedding the first route in the region (fig 4)

3. Claims 1-5, 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Yasuda et al. (USP 5889677) who discloses a method/program comprising:

(Claim 1 and similarly recited claim 10)

a) identifying a (first) route for a (first) net (fig 1-8, 27-40, 45);

b) determining whether embedding the first route in a region will make a set of unrouted nets unroutable (fig 3, col 8 lines 20-27, col 14 lines 51+);

c) when embedding the (first) route will make the set of unrouted nets unroutable, identifying a (second) route for the (first) net (col 3, fig 1-3, 36-37).

(Claim 9)

a) identifying a route for a net (fig 1-49);

b) determining whether to embed the identified route first route based on an estimated routing cost of a set of unrouted nets in a region when the region contains the identified route (col 14, 42, fig 1-3, 36-37).

(Claims 3, 12) embedding the first route in the region, removing (fig 38) the first route in the region when the embedding make the set of unrouted nets unroutable

(Claims 3-4, 12-13) embedding the first route in the region, removing (fig 4) the first route in the region when the embedding make the set of unrouted nets unroutable; embedding a second route for the region (fig 1-3, 36-37, col 3)

(Claims 5, 14) when embedding the (first) route will not make the set of unrouted nets unroutable; embedding the first route in the region (fig 1-3)

Art Unit: 2825

Response to Applicant Remarks

The prior art of record clearly disclose all the elements recited in the claims as detailed above.

Allowable Subject Matter

Claims 6-8, 15-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims

Claims 6-8, 15-17 would be allowable because the prior art does not teach or suggest the limitation (three further steps) on lines 2-6 of claim 6 and similarly recited claim 15.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
